STRETCH METAL DESIGNER CEILING BY FURAL

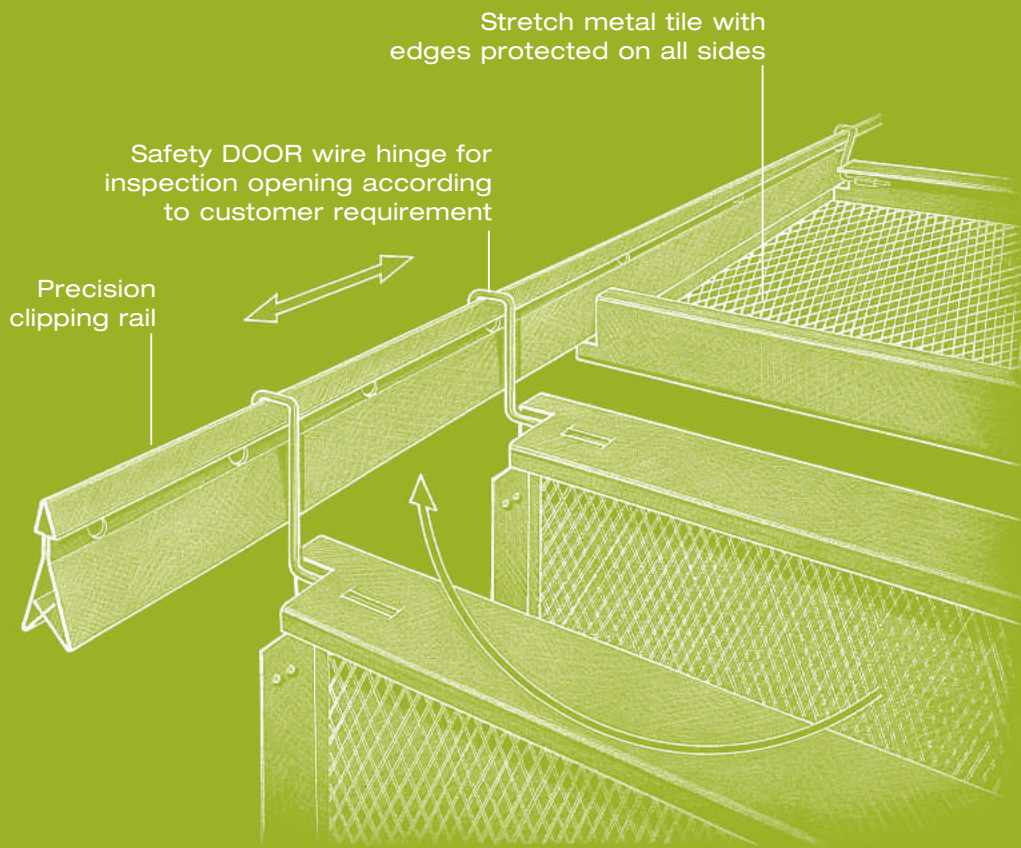

1 LAY IN SYSTEM T24

- > functional ceiling with a high free section or
- > noise abating ceiling with acoustic fleece
- > tile module 625 x 625 mm of standard stretch metal mesh manufactured by a deep-drawing process
- > elox surface finish or surface coating in any RAL colour desired
- > designed as a lay-in system for T24-rail
- > speedy and low cost installation – low logistics requirement
- > high flexibility in terms of colour, fleece, combination with other lay-in tiles
- > cut-outs for lighting fixtures or any other equipment can be provided
- > wall connection system can be chosen freely

2 DOOR SYSTEM

- > functional ceiling with a high free section, or
- > noise abating ceiling with acoustic fleece (no trickle of detaching material; $\alpha_w = 0.75$ with standard mesh according to test certificate of the Fraunhofer Institute for Building Physics [July 2002], or up to class A [$\alpha_w = 1.00$] with additional absorber)
- > tiles with stretch metal grating, mesh width according to customer requirement
- > visible tile border of approx. 10 mm all around the tiles
- > designed for installation with Fural clip-in system for speedy and low-cost installation
- > optional installation of the Fural DOOR system in order to be able to tilt tiles downward for inspection and maintenance purposes
- > cut-outs for lighting fixtures or any other equipment can be provided
- > wall connection system can be chosen freely

STRETCH METAL DESIGNER CEILINGS

are offered and manufactured by Fural in two systems, designed to meet specific ceiling requirements:

Functional ceilings with a high free section for ventilation and smoke discharge, or acoustically effective ceilings with excellent sound absorption characteristics.

What all systems have in common is the unique visual impression thanks to the mesh, a high degree of freedom in ceiling design, as well as simple and low-cost installation.

Custom-tailored solutions can be designed at any time in co-operation with our specialised planners.
